

AVALON

All Weather Floor Mats

\$99

Designed to protect the Avalon's original carpeting from dirt, mud, snow and slush, the all-weather floor mats feature a multidimensional surface, custom channel design and perimeter lip that combine to keep clothing and shoes clean, dry and stain-free. All-weather floor mats are custom-fitted to the vehicle's interior and front mats are embellished with a custom-molded Avalon logo. The mats also lock firmly in place to prevent sliding.

Auto Dimming Mirror

\$394

The automatic-dimming inside mirror relieves drivers from enduring the full glare of headlights from vehicles behind them through the use of two sensors attached to the mirror: a forward-facing light detection sensor, which detects the lighting conditions surrounding the vehicle; and the rear light detection sensor, which detects the light that strikes the inside mirror from behind the vehicle. During nighttime driving, if a difference in intensity exists between the surrounding light and the light reflected off the inside mirror, the auto-dimming feature automatically reduces the reflection rate of the inside mirror to dampen the glare and improve the driver's rear view. The inside mirror also integrates controls for the HomeLink® universal transceiver system, which can be programmed to operate up to three compatible remote control devices, plus a compass display in the upper right-hand corner of mirror.

Body Side Molding

\$245

Color-matched body side moldings help protect door exteriors from scratches, dents and chipping. Designed specifically to help preserve—and enhance—the vehicle's appearance.

Cargo Net

\$59

Custom-crafted for the vehicle cargo area, the cargo net is designed to hold a variety of everyday items—from groceries to athletic gear—and ensure they don't shift around or tip over. The cargo net features a hammock-style design and durable netting that attaches to defined points in the rear cargo area, making it easily accessible. The cargo net can be installed or detached in seconds, and folds flat for storage when not in use.

Cargo Trunk Mat

\$99

Color-coordinated and custom designed to protect the vehicle's cargo area, the trunk mat is constructed of highly resilient, fade-resistant 6-6 nylon that resists oils and chemical for unsurpassed durability. Plus the rubber-backed construction helps prevent the mat from sliding.

Carpeted Floor Mats – 5 pc \$199

Custom-tailored for an exact fit, the carpet floor mats are constructed of high-grade plush nylon carpet, color-matched to the vehicle's interior and include an embroidered Avalon logo. An aggressive underside no-slip backing features a "nib" texture and retention clip to help keep the mats in position. The mats protect the Avalon's original carpet from premature wear and stains. They're also removable and easy to clean.

Mud Guards \$199

Durable front and rear mudguards are designed to integrate with specific vehicle styling, body panels, structure and clearances—while helping to provide protection for vehicle paint from mud and dirt, as well as stone-chipping.

Rear Spoiler \$399

Made of high quality ABS plastic—helping to ensure precisely sculpted detail and long-term durability—the color-keyed rear decklid lip spoiler mounts to the rear decklid and adds a sporty, integrated appearance that enhances the Avalon's sleek aerodynamic lines.

Remote Engine Start \$599

The VIP Remote Engine Starter allows vehicle owners to start the engine before entering the vehicle—as well as to activate the air conditioner, heater, defroster and defogger functions—so owners can have their vehicle ready and waiting with a comfortable interior temperature. And because it's fully integrated into the vehicle's existing factory security/keyless entry system, there's no need for an additional remote. The remote engine starter is operated by pushing the "lock" button on the keyless entry fob in a quick, three-step sequence: (1) push and release "lock" button; (2) push and release "lock" button again; (3) then push and hold "lock" button for three seconds—and the engine starts. The engine can also be stopped remotely by pushing the "unlock" button once, or by pushing and holding the lock button for two seconds or more.

Wheel Locks \$65

Tinted Windows (3 Panels) \$335
